Points to note

Each banda has a private beach banda except B8 due to it's forest position.

Banda B1, B2 and B3 have a mezzanine and can be used as triple.

Banda B3 and B4 are closest to the main mess and are best for guests with mobility issues.

Banda B8 is furthest from the main mess and not recommended for guests with mobility issues.

Banda B8 is a wonderful honeymoon option with views over the canopy across Lake Tanganyika.

Please note that we can only guarantee a specific room if the request is based on mobility issues or for families.

This camp layout is not to scale.
