LIFE ENHANCED

Charlie Camp

“Anything the safari company touches, turns to gold.”

THE FINANCIAL TIMES

FIND THE GENTLE RHYTHM OF NATURE ON A SAFARI OF DAYS GONE BY

Charlie is the embodiment of light-touch safari excellence. This small, private camp is old-school in all the best ways; light enough to accompany safaris in truly remote places, comfortable enough to be truly spoiling.

EXPLORE AFRICA'S LAST FRONTIERS

Designed with exploration in mind, lightness of touch and mobility are central to its purpose. This means we can get into - and - around some of Tanzania's least explored wilderness areas. These areas give us complete freedom - to be alone, but connected in ways we may have forgotten.

A PRIVATE CAMP DELIVERING A UNIQUE SAFARI EXPERIENCE

This camp is a conscious step back to our roots as safari pioneers to bring an experience that can't be found anywhere else. Discover the untrodden paths of Tanzania's most remote areas and share these memories with your family and friends. We guarantee this adventure will live long in the memory and be cherished forever.

BRING A CHANGE OF PACE TO YOUR NOMAD ITINERARY

A safari holiday can be notably hectic - one night here, two nights there. Here is the perfect excuse to slow down. Take on the safari at nature's pace and immerse yourselves in nature from your safari vehicle, or on foot.

A THRILLING CHANCE TO ENCOUNTER WILDLIFE ON ITS OWN TERMS

Charlie serves up the perfect tonic to everyday life - time to disconnect from the modern world. The best safaris involve as much quiet observation as possible. You'll explore paths swept by the feet of large animals or discover secret watering holes, known only to the resident wildlife. This is what life-changing safaris are all about.
