

AT A GLANCE BLUE SAFARI SEASONS

Situated between seven and nine degrees south of the equator, the remote outer islands and atolls of the Seychelles offer miles of unblemished shorelines, lagoons and sea flats rich in fauna and flora and an assorted array of aquatic mammals, reptiles and fish. With the preservation of these islands and atolls at the heart of the Blue Safari Seychelles ethos, we offer Exceptional Experiences... Experiences are Our Luxury!

DESTINATION	OPENING	CLOSING
