COSMOLEDO EXPERIENCES

Experiences are Our Luxury..

** COMPLIMENTARY ACTIVITIES ON COSMOLEDO ATOLL.
ALL ACTIVITIES ARE WEATHER & TIDE PERMITTING.

ACTIVITIES

DUNE DOWNERS**

Head out from camp just before sunset and work your way towards the northern dunes of Wizard Island. After a short scramble you will be rewarded with breathtaking view across the blue lagoon. As the colour palette of the sunset comes into play across the vast skies enjoy a cold beverage and snacks as the evening begins.

DE-TACKLING DRINKS & SNACKS**

Every Wednesday guests join the AFC guides and team at the entertainment area for a social de-tackling gathering. The guides detackle and guests enjoy drinks with fellow nature, fishing and diver partners celebrating the week's achievements. Remember, new sighting and every fish counts!

KAYAKS & STAND UP PADDLE BOARDS**

Kayaks and stand up paddle boards are a perfect and non-intrusive way to get up close to turtles and rays around the flats and allow guests to enjoy Cosmoledo from a new perspective. A guided tour by nature experts who will point out seabirds and spot fishermen's delights such as bonefish, permit and triggerfish. A picnic basket in the form of a Yeti Cooler can be organised for the guide to carry along, enabling them to choose a spot for you to enjoy a secluded meal or snack.

REEF FLATS EXPEDITION**

Travel the inside reef flats of Cosmoledo with a knowledgeable and insightful guide. On this expedition guests get to appreciate the untouched view of the white sand, rich seagrass beds and crystal clear waters whilst spotting juvenile turtles, eels as well as crab, and molluscs deep in the sea grass, under rocks and squeezed into crevices in the reef platform. This is an opportunity to see all types of nature come together with mind-blowing biodiversity on the macro scale.

IN-ROOM SPA SERVICES

Our qualified masseuse works magic on tired bodies in need of special attention or simply those just wanting to indulge. From head and shoulders to full body massages we are able to tailor treatments to the individual. Special packages such as the fisherman's massage concentrate on key sensitive points to ensure you are left feeling rejuvenated.

SCUBA DIVING

Take to the reefs that few others have ever been to dive and explore the vast amount of coral reef on offer. Enjoy some of the most rich and diverse areas of coral reef found anywhere in the Seychelles. Expect to see snapper, grouper and reef fish in great abundance and huge sizes as well as a good supply of pelagic species and high chances of shark encounters. Cosmoledo is suitable for divers with advanced or higher qualifications. All diving must be pre-booked with the Blue Safari reservations team.

WIZARD ISLAND TOUR**

Join a guided tour across Wizard stopping at major landscapes and seascapes for guests to familiarize themselves with the coastal trails and most secret spots on the island. Cross the open grassland and venture through the scrub to scale the impressive sand dunes and be rewarded with a panoramic view of the atoll. During the tour guests will be informed about the early working life on Cosmoledo and the collection of guano, turtle and bird eggs and meat. Identify birdlife, fish and plants as you see every corner of the island with our knowledgeable guides. If you are lucky you may spot a nesting hawkbill or green turtle on the white sand beaches close to the Camp.

ATOLL EXPLORATION EXCURSION

Join our guides on an adventure like no other, learning, exploring and discovering all that the vast sand flats dotted with over 20 islands, islets and cays of various shapes and sizes have to offer. This is a full or half day excursion and you are able to decide how far and wide you would like to explore this magical atoll. Be prepared to have encounters with a variety of shark species and turtles. By visiting several islands you will be guided through skies, vegetation and waters filled to the brim with birdlife and learn about the reproductive cycles of globally and regionally important breeding populations. On land try your luck at spotting a range of birds endemic to this atoll group.

FLATS FLY FISHING

Cosmoledo has become known as one of the best giant trevally fisheries in the world and has become the benchmark for anglers searching for an outstanding saltwater flats fishing experience. The sheer numbers and variety of fish species has amazed the fly fishing world, with anglers from across the globe queuing up to sample this ultimate fishing playground. Try your hand on a full or half day of fly fishing with one of our experienced Alphonse Fishing Co. Guides in search of the various species Cosmoledo has on offer.

BLUE WATER FISHING

Experience offshore fishing like never before... The unspoilt waters of Cosmoledo Atoll are home to a vast variety of blue water species. The structure and sheer drop-offs are idyllic for species such as sailfish, wahoo, dogtooth tuna, yellowfin tuna and dorado. On each given day there is an opportunity to fight the reel and target these species for either a full or half day.

BLUE SAFARI EXPERIENCE

Cosmoledo acts as a home and stopping spot for a variety of cetaceans including spinner dolphins and occasional melon-headed whales, Risso's dolphins, bottlenose dolphin and beaked whales. During this trip you may also spot manta rays, tuna, mating turtles and many other marine species. Whilst exploring the offshore waters don't forget to look to the skies for interesting seabirds like petrels not always easily seen elsewhere.

SNORKELLING**

Non-divers may also experience the beautiful, enchanting marine life by partaking in guided snorkelling trips and can opt for the calm lagoon or explore the outer reefs. Snorkelling equipment is complimentary and is available for all guests to use. The abundant and colourful sea life sights are not to be missed.

MENAI MANGROVE NATURE HIKE

Take a half or full day excursion across the lagoon to the mangroves on Menai island. Skirt the edges of this huge mangrove forest and learn about the many different species of mangroves. This is a top spot for bird-watching, particularly red-footed boobies that roost in the tree tops. Among the roots and trunks look for red mangrove crabs and see if you can find the huge blue mangrove crabs. As the tide pushes in and around the trees do not be surprised if a curious sicklefin lemon shark lurks waiting for small prey to leave the shelter of the mangrove.
