Weather

Tropical climate with little temperature variation between summer and winter, resulting in year-round ideal weather. Short afternoon rain showers can occur from December to February, but these are not common. The sea temperature tends to remain between 25 - 28 °C (77 - 82 °F), so everyday is a beach day!

JANUARY – MARCH

25 – 35 °C | 77 – 95 °F

This is the peak of the hot and wet season, with some potential for gusty winds. Enjoy balmy days on the beach and watch out for high UV.

JULY – SEPTEMBER

17 – 29 °C | 63 – 84 °F

The coolest months of the year, but still very comfortable daytime temperatures. The humpback whales arrive along the coast on their migratory path.

APRIL – JUNE

17 – 31 °C | 63 – 88 °F

The rains are dissipating, and the temperatures are beginning to ease. Perfect weather for island activities, and cruising along the ocean.

OCTOBER – DECEMBER

21 – 33 °C | 70 – 91 °F

Perfect beach-going weather. Clear skies, smooth water, and great temperatures. Spend your days snorkeling or diving in the clear water.

- **Responsibility:** To what extent does the property handle management privately, and how much is overseen as a concession under a collaborative arrangement?
- **Fragility:** How vulnerable is the surrounding environment and community?
