The location is remote, with a basic medical kit onsite and medical rescue included in the trip cost	ACTIVITIES	experiences, bush picnics or private Crater Rim lunch, and sundowners.	
WEATHER				

Being on the crater rim means cooler temperatures year-round. Evenings and mornings are often chilly, with frequent mists.

JANUARY – MARCH

10 - 25°C | 50 - 77°F

Mornings are fresh, days are clear with mist rolling up the Crater walls. Rains start coming in in March.

APRIL – JUNE 8 - 22°C | 46 - 72°F

April–May bring cold mornings and nights with dramatic afternoon rains, but also sunny days and fewer crowds; June starts to dry out.

5 - 23°C | 41 - 73°F

Dry season with crisp, sunny days and cold, windy nights. Temperatures drop sharply after sunset on the Crater rim.

JULY – SEPTEMBER

OCTOBER – DECEMBER 10 - 25°C | 50 - 77°F

The "short rains" return but don't disrupt travel
— mostly brief afternoon showers. Mornings
are misty and evenings remain cool.

IMPACT OF EACH GUEST STAY:

L – Low

M – Medium

H – High

VH – Very High

Based on the following 4 considerations we look at the positive impact that each guest is making by staying here:

- Transferability: What percentage of the daily rates is allocated to conservation and community initiatives?
- Removability: What impact would arise if the property were absent? Are there alternative lodges in the vicinity that continue to make positive contributions?
- Responsibility: To what extent does the property handle management privately, and how much is overseen as a concession under a collaborative arrangement?
- Fragility: How vulnerable is the surrounding environment and community?
