WEATHER

Semi-temperate area with good weather throughout the year. The summer months (October – April) are sunny and warm, and the perfect time to enjoy good food and wine at the pool. The winter months (May – September) bring cooler temps and some rain but are ideal for hikes during the day and enjoying a good wine curled up by the fire.

JANUARY – MARCH

17 – 33 °C | 62 – 91 °F

Gorgeous hot and sunny days. Can be a windy time of the year. Little rain expected but does still occur. This is the harvest season.

APRIL – JUNE

9 – 26 °C | 48 – 79 °F

Temperatures begin to cool with lovely days and cooler nights/mornings. Rain expected. Beautiful time as the vineyards and trees get their autumn colours.

JULY – SEPTEMBER

7 – 19 °C | 45 – 66 °F

Winter months with rain and cool days. Nights can be cold while sunny winter days can reach over 25°C. This is a good time for wining, dining and fires.

OCTOBER – DECEMBER

12 – 29 °C | 54 – 84 °F

Days become increasingly warmer and longer. Not much rain anticipated, and the vineyards and orchards are all bursting with growth.

CLASSIC CLASSIFICATIONS:

P – Premier: These camps/lodges feature luxurious amenities and are priced at a higher tier.

C – Classic: These camps/lodges offer a more down-to-earth experience and are priced at a mid-level rate.

E – Expedition: These experiences are best suited for small groups or trips led by private guides.

IMPACT OF EACH GUEST STAY:

L – Low

M – Medium

H – High

VH – Very High

Based on the following 4 considerations we look at the positive impact that each guest is making by staying here:

- Transferability: What percentage of the daily rates is allocated to conservation and community initiatives?
- Removability: What impact would arise if the property were absent? Are there alternative lodges in the vicinity that continue to make positive contributions?
- Responsibility: To what extent does the property handle management privately, and how much is overseen as a concession under a collaborative arrangement?
- Fragility: How vulnerable is the surrounding environment and community?
