Weather

Being on the crater rim means cooler temperatures year-round. Evenings and mornings are often chilly, with frequent mists.

JANUARY – MARCH
10 - 25°C | 50 - 77°F
Mornings are fresh, days are clear with mist rolling up the Crater walls. Rains start coming in in March.

APRIL – JUNE
8 - 22°C | 46 - 72°F
April–May bring cold mornings and nights with dramatic afternoon rains, but also sunny days and fewer crowds; June starts to dry out.

JULY – SEPTEMBER
5 - 23°C | 41 - 73°F
Dry season with crisp, sunny days and cold, windy nights. Temperatures drop sharply after sunset on the Crater rim.

OCTOBER – DECEMBER
10 - 25°C | 50 - 77°F
The “short rains” return but don't disrupt travel — mostly brief afternoon showers. Mornings are misty and evenings remain cool.

CLASSIC CLASSIFICATIONS:

P – Premier: These camps/lodges feature luxurious amenities and are often priced at a higher tier.

C – Classic: These camps/lodges offer a more down-to-earth experience and are priced at a mid-level rate.

E – Expedition: These experiences are best suited for small groups or trips led by private guides.

IMPACT OF EACH GUEST STAY:

L – Low

M – Medium

H – High

VH – Very High

Based on the following 4 considerations we look at the positive impact that each guest is making by staying here:

- **Transferability:** What percentage of the daily rates is allocated to conservation and community initiatives?
- **Removability:** What impact would arise if the property were absent? Are there alternative lodges in the vicinity that continue to make positive contributions?
- **Responsibility:** To what extent does the property handle management privately, and how much is overseen as a concession under a collaborative arrangement?
- **Fragility:** How vulnerable is the surrounding environment and community?
