WEATHER

The Samburu area experiences desert-like weather, with a dry, hot climate throughout the year. Nighttime and morning temps are cold. The peak rain periods are in April and November, though even those are not exceptionally wet.

JANUARY – MARCH

14 - 35 °C | 57 - 95 °F

The dry spell between the long and short rains, with pleasant daytime temperatures. Scattered showers begin in late March.

APRIL – JUNE

16 - 32 °C | 61 - 90 °F

April sees the most rainfall of the year,, but by June the skies clear and days are comfortable and dry.

JULY – SEPTEMBER

14 - 31 °C | 57 - 88 °F

The mornings and evenings can be chilly, but the days are filled with blue skies and warm sunshine. Great time for full day adventures.

OCTOBER – DECEMBER

15 - 33 °C | 59 - 91 °F

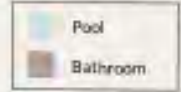

The short rains begin, with November seeing the most precipitation. Showers tend to fall in the form of afternoon storms.

H – High

VH – Very High

Based on the following 4 considerations we look at the positive impact that each guest is making by staying here:

- Transferability: What percentage of the daily rates is allocated to conservation and community initiatives?
- Removability: What impact would arise if the property were absent? Are there alternative lodges in the vicinity that continue to make positive contributions?
- Responsibility: To what extent does the property handle management privately, and how much is overseen as a concession under a collaborative arrangement?
- Fragility: How vulnerable is the surrounding environment and community?
