Based on the following 4 considerations we look at the positive impact that each guest is making by staying here:

- Transferability: What percentage of the daily rates is allocated to conservation and community initiatives?
- Removability: What impact would arise if the property were absent? Are there alternative lodges in the vicinity that continue to make positive contributions?
- Responsibility: To what extent does the property handle management privately, and how much is overseen as a concession under a collaborative arrangement?
- Fragility: How vulnerable is the surrounding environment and community?
