Privately Guided Fly-in Safaris

Nomad Open Vehicle with Open/Close Canvas Roof & Sides

(can be zipped open or closed depending on weather conditions; front windscreen can be up or folded down over bonnet)

- Guests arriving on a fly-in safari to Nomad camps will be met at the nearest airstrip by their Nomad guide and Open or a Closed Vehicle.
- Fly-in guests must pre-book an Open Vehicle to guarantee it for each Nomad camp. For bookings that don't pre-book, guests may be met with either type of Nomad vehicle on their arrival.
- The exception to this is at Entamanu and Entamanu Private, where all the vehicles are the closed type, a requirement within the Ngorongoro Crater.
- The standard Nomad Open Vehicle has seating for up to 4 guests
- Our stretch Nomad Open Vehicle has seating for up to 6 guests
- Fridge inside the vehicle, stocked daily with cold drinks and snacks.
- 3-pin (UK) socket – with USB ports – for charging devices
- Bean bags available for resting camera lenses on.
- For groups of 6/7 guests a stretch vehicle with 3 rows of seats in the back (1 in front next to driver) is available on request.

Privately Guided Driving Safaris

Nomad Closed Vehicle with Pop Up Roof

- Guests heading out on a Nomad privately guided driving safari through Northern Tanzania, will enjoy our closed safari vehicles which have been designed to maximise both comfort and game viewing. When the roof panels are off, there is a raised sunshade for comfort, and guests are able to stand and look out from the top of the vehicle.
- Enlarged windows for better viewing
- Fridge inside the vehicle, stocked daily with cold drinks and snacks.
- 3-pin (UK) socket – with USB ports – for charging devices
- Bean bags are available for resting camera lenses on.
- For groups of 6/7 guests a stretch vehicle with 3 rows of seats in the back (1 in front next to driver) is available on request

The benefits of a Nomad closed vehicle:

In our experience over the last 30 years of running safaris through northern Tanzania, our closed vehicles offer our guests the most comfortable game viewing possible. They provide the option for guests to stand or sit, better for photography and protection against the elements such from cold, rain or sun.

For longer days out, transfers between camps or guests doing over-land safaris through northern Tanzania our closed vehicles offer the best solution.
